

Audubon Council of Washington Annual Meeting 2018: Through a Local Lens

Saturday, October 13, 2018 9:00 AM - 4:30 PM

Brightwater Center 22505 State Route 9 SE | Woodinville, WA

AGENDA

WHEN	WHAT	WHO
7:30 AM	Morning Walk & Tour of the Brightwater Treatment	Kristen Covey
8:30	Name tag pick up, late registration	
9:00	Welcome and Volunteer of the Year Award	Eastside Audubon
9:15	Washington's Role in National Strategic Priorities	Gail Gatton, Executive
	Overview of national priorities	Director Audubon
	How statewide and chapter efforts contribute to goals	Washington
9:35	Building a Strong, Cohesive Audubon Network	Loren Smith, Director,
	 National policy agenda (MBTA, LWCF, etc) 	Network Development and
	 Developing volunteer leaders 	Strategy National Audubon
	— Developing volunteer leaders	Society
	Preview of the 2019 Audubon Convention	
	5 Minute Success Story – Admiralty Audubon: Native Plant	Rick Jahnke, Admiralty
	Program Soars to New Level	Audubon
10:30	BREAK	
10:45	The Future of Birds in National Parks	Chad Wilsey, Vice President
	— A look at the science behind the latest birds & climate report	Conservation Science
	from National Audubon	National Audubon Society
	— What can we expect at North Cascades, Olympic and Rainier	
	National Parks	
	How can we use this information to protect public lands	
	5 Minute Success Story – Vashon-Maury Audubon: Lobby Day	Julie Burman, Vashon-Maury
	Experience Deepens Chapter Leader Engagement	Audubon
11:45	LUNCH	
12:30 PM	Panel Discussion: Climate Action in Washington 2018-2019	Reed Schuler, Senior Policy
	Governor Inslee's Climate and Sustainability Policy Agenda	Advisor for Climate and Sustainability Office of
	— Governor insiee's climate and sustainability Policy Agenda	Governor Jay Inslee
	 Putting a Price on Carbon: I-1631 Carbon Fee Initiative 	Mad Cutura British Mit
	. Italian a resident and a second a sec	Vlad Gutman-Britten, WA Director, Climate Solutions

	 — 100% Clean Energy Standard: Moving to a Clean Energy Future in WA by 2045 	Rep. Beth Doglio, 22 nd LD
	 Low Carbon Fuel Standard: Joining Other West Coast States to Reduce Transportation Pollution 	Rep. Joe Fitzgibbon, 34 th LD
1:45	Overview of What's Happening Around the Network in Washington to Build a Broader Base of People Who Care about Birds and Want to Protect Them	Charley Wilkinson, Seward Park Audubon Center
	Attracting and engaging young professionals	Pam Borso, North Cascades Audubon
	— Pride Month: Let's Go Birding Together (LGBT)	
	Trying to engage college students	Lori Nelson, Lower Columbia Basin Audubon
	— Serving as a convener in the urban environment	John Brosnan, Seattle
	ACTION ITEM: Identify small ad hoc group to develop code of	Audubon
	conduct for the listservs	
2:40	5 Minute Success Story – North Cascades Audubon: Stopping ORVS in their Tracks	Robert Kaye, North Cascades Audubon
2:45	BREAK: Crowdsourcing Chapter Bests	ALL
	Please be prepared to share your chapter's best programs,	
	speakers, and photographers (paper and markers provided). The	
	list will be compiled and sent out after the meeting.	
3:00	Concurrent Sessions – Who Does It Best: Small Group Discussions Highlighting Chapter Expertise	Chapter Leaders
	Shoreline Management Plans: Elizabeth Rodrick (Black Hills)	
	 Local Land Use Decision Making: Judy Hallisey & Barry 	Facilitator: John Brosnan,
	Brunson (Kittitas), Tim Manns (Skagit), Kristin Kelly (Pilchuck)	Seattle Audubon
	Voluntary Stewardship Plans (Lori Nelson, LCBAS)	
	Site Stewardship around IBAs: Paul Woodcock (North	Facilitator: Julie Burman,
	Cascade), Gene Bullock (Kitsap)	Vashon-Maury Audubon
	Bird Fests as Outreach & Engagement: Richard Scranton	Facilitator: Heather Gibson,
	(North Central), Ken Wiersema (Olympic Peninsula)	Rainier Audubon
4:15	Wrap Up and Next Steps	Gail Gatton
4:30	ADJOURN & RECEPTION	

POST-MEETING RECEPTION

Wine, beer & appetizers hosted by Audubon Washington Catered by Mother's Roots

Location: Brightwater Center, 22505 State Route 9 SE | Woodinville, WA

BIOGRAPHIES

<u>Loren Smith</u> – Loren is the Director of Network Development and Strategy at National Audubon Society. A native of Western New York, Loren served as the executive director of Buffalo Audubon Society for seven years prior to joining National Audubon in 2018. He has a PhD in Organismic and Evolutionary Biology (Paleontology). He is interested in nature education, stewardship of the natural world, and environmental advocacy, especially with respect to birds.

<u>Chad Wilsey</u> – Chad is the Vice President of Conservation Science for the National Audubon Society. With a PhD in Landscape Ecology and Master of Science in Conservation Biology and Sustainable Development, Chad engages in a wide variety of spatial and non-spatial analyses across the Audubon network. His team provides science support for major conservation initiatives, especially the original science supporting the Climate Initiative. Chad uses spatial data and analysis tools, such as remote sensing and computer modeling, to address the potential impacts of development and climate-change on bird and wildlife populations.

Reed Schuler – Reed Schuler is a Senior Policy Advisor to Governor Jay Inslee of Washington State, where he focuses on climate change issues. Previously, Reed served at the U.S. Department of State as a U.S. negotiator for the Paris Agreement on climate change and then on Secretary of State John Kerry's Policy Planning Staff, the Secretary's independent policy and strategy office. As a Paris Agreement negotiator, he managed the U.S. diplomatic effort to galvanize all countries in the world to submit ambitious climate action targets, and led the U.S. technical group to analyze these targets. Reed has conducted research in urban development, transportation, and sustainability as a Fulbright Fellow in Shanghai, China, led an energy efficiency and renewable energy strategy initiative with Mass Audubon and the social impact consulting group New Sector Alliance, and started and managed an innovative, cross-sector community engagement and energy efficiency program for the Baltimore Office of Sustainability and the Baltimore Community Foundation.

Representative Beth Doglio – in addition to serving as a state representative from the 22nd legislative district (Olympia), Beth serves as the campaign director at Climate Solutions, a Northwest-based clean energy economy nonprofit. She also served as the regional co-director for the Power Past Coal campaign. Beth was the founding executive director of Washington Conservation Voters in the early 1990s and a campaign organizer and later the development director for Audubon Washington. Beth has worked in the public, private, and non-profit sectors, and has served in leadership staff positions in numerous political campaigns.

Representative Joe Fitzgibbon – As a state representative from the 34th legislative district, Joe serves as the Chair of the Environment Committee. He also serves on the Appropriations and Agriculture & Natural Resources committees. Joe has worked to expand transit, and to make walking and bicycling safer. He has successfully passed into law environmental reforms that improve the functioning of those laws without compromising environmental protections. He is a strong advocate for cleaning up Puget Sound, reducing greenhouse gas emissions, protecting and improving Washington's land-use laws, and expanding access to the electoral process for historically disenfranchised populations like low-income people and youth. Prior to his election, Joe served as a legislative staffer in state and local government and as the Chair of the Burien Planning Commission.

<u>Vlad Guttman-Britten</u> – Vlad is the Washington State Director for Climate Solutions, an organization that works to accelerate clean energy solutions to the climate crisis. He is responsible for guiding policy development and building an integrated communications, advocacy, and government affairs strategy to foster a clean energy economy in Washington. Before coming to Climate Solutions, Vlad was Senior Policy Director for the Washington Wildlife and Recreation Coalition, where he successfully secured tens of millions of dollars in state investment in habitat and recreation lands. A veteran campaign operative, he has run congressional and state legislative campaigns and worked on races ranging from mayoral to presidential.

SATURDAY & SUNDAY FIELD TRIPS

What: Morning Walk & Tour of the Brightwater Treatment **Date**: Saturday, October 13th **Time**: 7:30 – 8:30 am

Meeting Location: Env Education & Community Center 22505 State Route 9 SE | Woodinville, WA

Details: The Brightwater Center, where we will be holding our ACOW meeting includes 70 acres of public open space with three miles of walking trails and 40 acres of natural habitat. It also includes King County's state of the art wastewater treatment plant. Start your day with a brief tour led by Kristin Covey, Brightwater's Education and Outreach Coordinator and learn about this amazing water system. The plant design integrates landscape, architecture, wildlife habitat, engineering, art, and education. **25 participant maximum**

What: Informational Tour of the Weyerhaeuser Campus **Date**: Sunday, October 14th **Time**: 8:30 – 11:00 am

Meeting Location: Rhododendron Species Botanical Garden parking lot in Federal Way. 2525 S 336th St, Federal Way, WA 98003. About a 50 minute drive from the Brightwater Center in Woodinville. Restrooms may not be available until 10:00 am, so please plan accordingly. Rainier Audubon will have two vans at the parking lot to shuttle participants around campus.

Details: Weyerhaeuser Campus is a 425-acre historical and environmental gem. The property boasts over 7 miles of forest and meadow trails, the longest undeveloped lakefront shoreline in South King County, and the head waters of the main branch of the salmon bearing East Hylebos which drains into Commencement Bay. This urban nature getaway is home to a diverse habitat that includes over 120 bird species. The campus is a hotspot in Rainier Audubon's territory—well known for its waterfowl including Redheads, Ruddy Duck and even Trumpeter Swan. In 2016, the campus sold to an out of state developer with plans to develop much of the forest and meadow into large scale warehouses. Rainier Audubon has worked in coalition to preserve, protect and maintain the unique nature of this suburban oasis. The tour will include a walk along the 54-acre North Lake shoreline conservation piece and a rare "behind the scenes look" at conservation work being done at the world-renowned Rhododendron Species Botanical Garden led by curator Steve Hootman. An added bonus is free access to the Pacific Bonsai Museum after the tour. **20 participant maximum**

What: Birding at Juanita Bay **Date**: Sunday, October 14th

Time: 8:00 – 11:00 am (1-3 hours depending on birds; or leave anytime you prefer)

Meeting Location: Juanita Bay Park, 2201 Market Street, Kirkland. Meet at the kiosk by the parking lot.

Details: Juanita Bay Park is a primary birding hot spot on the east side of Lake Washington. It offers variety of habitats for birds, waterfowl, raptors, shorebirds, amphibians, turtles, beavers and other small animals. Three elevated board trails provide access to the lake for close views of waterfowl. The wooded area along the trail offers many opportunities to spot songbirds, woodpeckers and raptors. In collaboration with the City of Kirkland, Eastside Audubon offers weekly bird walks, helps with restoration, and participates in annual events such as Migration Day and Earth Day. In mid-October there are 137 species recorded for the past 10 years. Expect to see migrants such as Bufflehead, Green-winged Teal, Northern Shoveler, Canvasback, Ring-necked Duck, both the Golden and Ruby-crowned Kinglet, Varied Thrush, Yellow-rumped Warbler and Northern Pintail. Residents such as Woodduck, Marsh Wren, Red-breasted Sapsucker, Bald Eagle, Cooper's Hawk, Bandtailed Pigeon, and Chestnut-backed Chickadee are likely. You might be lucky enough to spot Hermit Thrush, Pileated Woodpecker, Purple Finch, Sora, Virginia Rail, and Eurasian Wigeon. **20 participant maximum**
